

For an Open Mind

UNIVERSAL TECHNOLOGY AND MANAGEMENT UNIVERSITY

UTAMU

FINAL EXAMINATION FOR JANUARY – APRIL 2026 SEMESTER

SCHOOL: TECHNOLOGY, COMPUTING AND ENGINEERING

PROGRAMME(S): BSc. SE

YEAR / SEMESTER: 4TH YEAR, SEMESTER 1

COURSE CODE: CSE 4200

COURSE TITLE: SELECTED TOPICS IN SOFTWARE ENGINEERING

DATE: 17TH/04/2026

DAY: FRIDAY

TIME: 09:00 AM – 12:00 PM

DURATION: 3 HOURS

INSTRUCTIONS TO CANDIDATES

- Do NOT submit a new project
- Continue improving your existing system
- Ensure your system works correctly
- Submissions without clear improvements will lose marks

TASK: FINAL PRACTICAL EXAM: PROJECT ENHANCEMENT & PRESENTATION

Area:

- Laravel (PHP) OR
- ASP.NET / C# (Razor Pages, Blazor, ASP.NET + React/Angular)

Submission Mode:

FILE SUBMISSION ONLY (NO LIVE PRESENTATION)

1. Objective of the Final Exam

This exam evaluates:

- Overall improvement of your project from Test 1 and Test 2
- Ability to design and extend a complete working system
- Practical application of frameworks and object-oriented concepts
- Quality of implementation and system completeness
- Ability to communicate your work professionally using slides

Students must demonstrate **clear and significant improvements across all stages.**

2. What to Submit (ONE ZIP FILE)

File name format: RegNo.zip

3. Contents of the ZIP File (COMPULSORY)

A) Final Project Report (MAXIMUM 4 PAGES – PDF)

File name: Final_Project_Report.pdf

Report Structure

1. Introduction
2. System Overview
3. Enhancements from Test 1 and Test 2
4. System Architecture
5. Object-Oriented Concepts Used
6. Challenges and Solutions
7. Conclusion
8. References

B) PowerPoint Presentation (COMPULSORY)

File name: Project_Presentation.pptx

Slide Requirements (10–15 slides)

- Title
- Problem
- Objectives
- Technologies
- System overview
- Architecture
- Features
- Improvements from Test 1
- Improvements from Test 2
- Screenshots
- OOP concepts
- Challenges
- Conclusion

C) Implementation Screenshots (MINIMUM 10)

Folder name:

/Screenshots

Must show:

- System interface
- Features
- Database
- Code
- Improvements

D) Final Source Code

Folder name:

/Source_Code

Rules:

- Laravel: exclude vendor
- ASP.NET: exclude bin and obj
- Include README file

In case the source code is heavy, include the GitHub link in the report.

4. Minimum System Requirements (MANDATORY)

Your system MUST:

- Perform full CRUD operations
- Store and retrieve data from a database
- Include validation
- Include at least TWO additional features beyond CRUD
- Show improvements from previous tests

5. Assessment Criteria (100 Marks)

Criteria	Marks
Improvement from Test 1 and Test 2	30
System Functionality & Features	25
Code Quality & Structure	15
Screenshots & Evidence	10
Final Report	10
PowerPoint Presentation	10

Total: 100 Marks

6. Marking Emphasis

Special attention will be given to:

- Clear improvements from earlier submissions
- Additional features and system expansion

- Code organization and best practices
- Evidence of actual implementation
